The goal of Williamsburg Christian Academy is to provide students with a positive environment that fosters a love of learning, laying the foundation for academic success. Beginning with a strong phonics curriculum, our elementary department has designed a challenging program where God's word is integrated throughout each core subject.

We understand that all children are unique in their academic development and therefore, we strive to reach every child where they learn and how they learn. Through both resource and accelerated classes, our teachers work to meet each child at the point of their need.

Students attending WCA will find a well-qualified and caring staff, desiring to bring out the best of what God had placed in each of them.
