

Middle School Curriculum

Grades 6-8

Middle School is a time of constant change. The curriculum at Williamsburg Christian Academy recognizes the challenge this stage of development offers and is committed to bridging the gap between elementary and high school. Students are given opportunities to increase organization and study skills, time management, and abstract thinking. Through foundation building core and exploratory classes, students prepare for the rigor of their high school years and focus on college preparation.

Weekly chapels and daily Bible classes along with school supported Mission opportunities reinforce scriptural principles and values necessary for the development of Godly character.

Students are encouraged to get involved with the various academic competitions and extracurricular activities at WCA. From Student Council Association and Chapel Praise Team to Interscholastic Athletics, middle school students are given a variety of ways to express themselves beyond the classroom.

Core Academics
Bible
Mathematics-Saxon
Literature
Grammar (Shurley)
General Science-6 th
Life Science-7 th
Physical Science-8 th
American History-6 th
Civics-7 th
