

WILLIAMSBURG CHRISTIAN ACADEMY PRE-KINDERGARTEN

God has given the ultimate responsibility of rearing children to parents. We believe sending a child to our Pre-Kindergarten program will help to reinforce and support the love and training upon which Christian parents have already been working. At Williamsburg Christian Academy, we consider ourselves partners with you in Christ, working toward the healthy growth and development of your child.

Curriculum

The Pre-kindergarten curriculum at Williamsburg Christian Academy is designed to offer phonics and math programs essential to Kindergarten readiness. Other parts of the curriculum include, writing skills, color and shape recognition, rhyming, skills in sequencing, patterning, matching, and sizing. As an extension of our Kindergarten readiness students learn the necessary skills for successful social interaction. These include relating to the teacher, taking turns, getting along well with others, raising hands for recognition, walking in line, taking responsibility for personal items, listening, following directions, working in groups and independently. Students are trained in these skills through both structured and non-structured activities.

Physical Development

The Elementary wing of our 65,000 square foot facility provides room to promote creativity. In each Pre-kindergarten classroom, children are encouraged to explore using building blocks, sand/water table, dress-up, computer/listening center and reading center. Daily music and movement are also part of our program.

Readiness for Pre-Kindergarten

Many factors go into whether a child is ready for Pre-Kindergarten. Each school develops its own set of standards for admission. At Williamsburg Christian Academy, we adhere to the following standards:

- Child must be 4 years old by September 30th
- Child must be completely potty trained.
- The child should be normally comfortable with separation from the parent at the beginning of the school day.
