

## CONSENT FOR MEDICATION (PLEASE READ CAREFULLY)

It is always best if your child can receive medications at home. However, we realize there are times when this is not possible. Therefore, prescription and non-prescription medications may be given at school when the following conditions are met:

1. Medications (prescribed and non-prescribed) will not be administered without a completed Consent For Medication Form, which must be on file **each new school year** for every student. Only OTC topical medications such as Neosporin can be administered without a physician's written instructions.
2. For prescribed drugs, The parents or students are to bring the medication to the front office at the beginning of the school day, accompanied by a physician's written instructions that clearly state the name of the medication, dosage and time to be given. All students are required to take medication in front of the school nurse or authorized office personnel.
3. Students with pre-existing conditions, such as sinus allergies, asthma, allergies to bee stings and food or take other medications on a regular daily basis may leave the necessary medications at school at all times with accompanying physician's note.
4. The medication named on the container **must** be the medication inside the container. (No zip lock baggies)
5. All OTC non-prescribed medications must be brought to the office in a new unopened package, labeled with the student name and homeroom teacher/grade. This includes pain relievers, eye drops, topical medications, nasal sprays etc...

I agree to the above conditions and wish my child, \_\_\_\_\_, be given the following medications by the nurse/office staff at WCA:

Name of Medication: \_\_\_\_\_

Dosage to be given: \_\_\_\_\_

Time to be given: \_\_\_\_\_

Purpose of medication: \_\_\_\_\_

Prescribing Physician signature: \_\_\_\_\_

Parent Signature: \_\_\_\_\_ Date: \_\_\_\_\_

(Note: A new form for each student must be signed yearly.)
